Kunshan Jiashida Packaging Technology Co., Ltd.

Kunshan Jiashida Packaging Technology Co., Ltd. was established in 2015 and is headquartered in Jiangsu Province, China. It is a packaging company dedicated to solving fragile products in logistics transportation for customers.

AIR JASID Packaging specializes in the production of protective inflatable cushioning packaging series products.

At least millions of transport packages are protected every day.

Integrating R&D, design, production, sales and service, it has obtained more than 50 invention patents so far, sold to the United States, Europe, Southeast Asia and other countries, and passed ISO9001:2015, ISO14001.

Our mission is to provide customers with more environmentally friendly, efficient and easier transportation packaging solutions.

Our vision is to hope that every customer in every corner of the world can use our products.

01

INFLATABLE AIR PACKAGING

- Air column bag
- Air column roll
- Bag in bag
- Air filling bag

AIR CUSHION PACKAGING

- Air cushion film
- Air pillow film
- Air bubble film
- Air machine

02

OTHER PACKAGING

- Honeycomb paper
- Express bag
- Tape

03

OUR PRODUCT

Our company's product positioning is "inflatable protection" to ensure the quality of each inflatable package.

All raw materials are imported from abroad, and we are committed to providing customers with the best quality inflatable packaging and the concept of safer long-term transportation.

AIR COLUMN BAG

PRODUCT PARAMETERS

Name: Air column bag
Size: Various specifications
Thickness: 40/50/60/70mic/OEM
Color: Transparent
Material: 7-layer co-extruded film
Type: Q/L/U

PRODUCT INTRODUCTION

Air column bags can protect products 360° in all directions and improve protection performance.

They can be customized according to the specific size of the product.

The damage of a single air column does not affect other air columns. Customized continuous roll bags can be used with automatic inflators, which are more efficient and energy-saving.

AIR COLUMN ROLL

PRODUCT PARAMETERS

Name: Air column bag
Size: 15-140cm
Thickness: 40/50/60/70mic/OEM
Color: Transparent
Material: 7-layer co-extruded film
Type: Q/L/U

PRODUCT INTRODUCTION

JASID air column Roll owns patent valve, air flow more smoothly,

no heating needed, Strong and keeps airtonger, provides excellent cushion protection during transit,

Products comply with ROHS, save your storage space.

BAG-IN-BAG

PRODUCT PARAMETERS

Name: Bag in bag

Size: More size available

Material: 7-layer co-extruded film

Thickness: 50mic

Color: Transparent

Type: No hole in the middle/
with hole in the middle

PRODUCT INTRODUCTION

Bag in bag is divided into two types: with hole in the middle and without hole.

Each side has two layers. When inflated, the product will be squeezed and suspended in the air to achieve a shockproof effect!

AIR FILLING BAG

PRODUCT PARAMETERS

Name: Filling bag

Size: More size available

Material: 7-layer co-extruded film

Thickness: 50mic

Color: Transparent

PRODUCT INTRODUCTION

Filling bags are widely used. After inflating, they are filled in the gaps between items.

They have efficient cushioning protection, high film thickness, and very good filling effect!

AIR BUBBLE QUILT

PRODUCT PARAMETERS

Name: Air bubble film
Size: 32x40/40x60cm/OEM
Length: 300m/OEM
Thickness: 15/18/20/25/30 mic
Type: small /large bubbles
Color: Transparent

PRODUCT INTRODUCTION

Gourd film needs a special machine to inflate, and the machine speed can reach more than ten meters per minute, saving costs and convenient tearing.

It can be packaged and filled, and is widely used. It is a must-have material for major e-commerce warehouses and shipments!

AIR CUSHION PILLOW FILM

PRODUCT PARAMETERS

Name: Air pillow film
Size: 10x20/13x20/20x20cm
Material: HDPE/LDPE
Thickness: 15/18/20/25/30 mic
Color: Transparent

PRODUCT INTRODUCTION

Bubble pillows need a special machine to inflate, and the machine speed can reach more than ten meters per minute.

Excellent puncture and pressure resistance feature, provide the best cushion effect while reduce your carbon footprint.

INFLATABLE TOOLS

ELECTRIC AIR PUMP

AIR COMPRESSOR

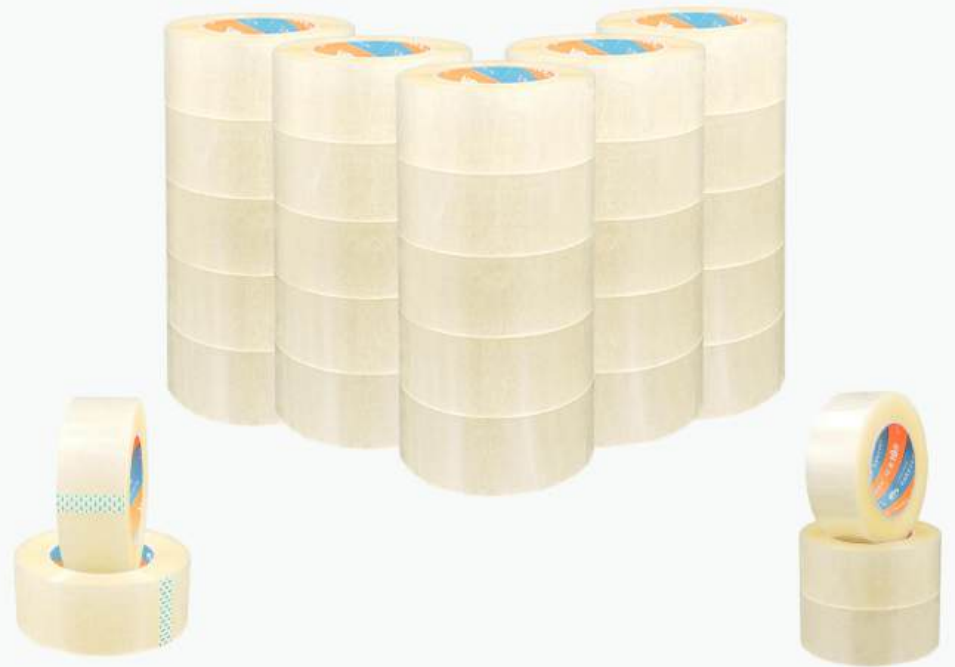

MULTI-FUNCTION INFLATOR

AIR COLUMN ROLL INFLATOR

ADHESIVE TAPE

PRODUCT PARAMETERS

PRODUCT INTRODUCTION

- Name: Tape
- Width: 3.6/4.8/6.0cm
- Material: BOPP
- Application range: Packing
- Color: Transparent

This tape is suitable for e-commerce, carton sealing, household use, packaging, and packing.

Features of the tape: tight winding, strong and durable, strong adhesion, not easy to break, reliable quality, reasonable price, suitable for commercial use!

PEPA Co-extruded Film

It uses imported Italian film blowing equipment, advanced German testing device technology, and is equipped with a central feeding system.

The film has excellent strength, smooth cut surface, uniform thickness, high toughness and puncture resistance, and high transparency

It is widely used in the production of raw materials for air column rolls, food vacuum bags, container filling bags, etc.

Sufficient production capacity

Owning multiple film blowing equipment, daily production capacity of 30 tons

- 1.Environment Friendly
- 2.Space Saving
- 3.Efficient work, saving auxiliary materials
- 4.Buffer shockproof, protect the surface, beautiful packagin
- 5.Various colors
- 6.Excellent quality
- 7.Customized Service

Color: Brown/white/black/red

Gram Weight: 80g/OEM

Width: 300/400/500(mm)

Length: 30/50/100/250(m)

Various colors of kraft paper through special process, after stretching, show 3D honeycomb structure

provides protection against surface abrasion and internal impact when multiple items are packed together.

It can replace bubble film and is a case of paper instead of plastic.

Poly bag

PRODUCT PARAMETERS

Material: Brand new PE material
Color: white/black/pink/OEM
Size: Stock size and OEM
Sealing Type: Destructive glue
Self&Handle: Self-adhesive seal

PRODUCT INTRODUCTION

Express delivery bags, made of PE or PVC, vary in size and sealing type. PE ones are flexible and PVC ones are stiff.

Self-adhesive and heat-sealing types exist. They protect items from dust, moisture and collision, with areas for delivery info, facilitating sorting and delivery.
